

## Fashion AVENUE – WITH Jodie Kidd

Jodie finds all the hottest places to shop, boutiques that set each chosen destination apart, restaurants that those in the know flock to, design-led hotels, the new word in urban hip and nightclubs where you'll want to party the night away.

Fashion Avenue knows where it's at. A sassy, fun look at eclectic design worldwide, from minimalist chic to the downright ostentatious. Jodie knows what she likes and isn't afraid to speak her mind.

### Venice

Jodie Kidd checks out the cool artisan boutiques of La Mercerie in Venice guided by Italian fashion editor Giorgia Cantarini. It's December - and Jodie needs a festive outfit for a Christmas party, whilst Giorgia is after something glamorous but edgy for a music festival. Pounding the pavements of one of the world's most beautiful cities, the duo discover stunning handmade pieces in Venice's traditional design studios - and in a bid to add a touch of Venetian mystique to Jodie's mission, Giorgia persuades her to take a James Bond style water taxi to the shop where Stanley Kubrick bought masks for the film *Eyes Wide Shut*. But as the day draws to a close, will Jodie have her Christmas outfit wrapped up?
