Tourists who want to visit Venice in a weekend, cannot do without them. We are talking about the classic tourist guides that can be found in any library, with sections dedicated to travel and tourism. Visiting Venice without an adequate information support would be like trying the food specialties of a city by eating ready-made meals bought at self-service vending machines. In this way, one will not get the right idea on the food

specialties of the place, in the same way as wandering through Calli, Campielli and Bridges would not give the real impression of this beautiful lagoon city.

Venice is technically unique although many other cities in Europe and in the world like to define themselves "the other Venice", the "Venice of the North", the "big/little Venice", etc. There's nothing wrong with that, but the fact remains that the city of Venice is unique, in size, features and peculiarities.

Therefore in order to thoroughly visit Venice, without leaving to chance the decision on what to see and do, you absolutely need a suitable tool, on paper or in digital format, which can somehow guide and help you discover this World Heritage city.

The tour guides of Venice range from general to specific, thus giving each reader the key that best suits his/her needs. Generic guides are the most suitable for an audience that wants to get a global idea of the city, not only from a historical and artistic point of view, but also in relation to the bars and restaurants in Venice, the main shopping streets and information about the different types of hotels.

However, even highly specialized travel guides are available on the market, which present the palaces and museums of Venice with detailed descriptions of the single works on display, the precious frescoes in the churches or the valuable objects dating back to the Renaissance period and the time of the Venetian Republic.

Venice on Internet

Tourist Promotion Portal of the Province of Venice

<http://en.turismovenezia.it/>

This website provides tourist information, as well as news on events and thematic itineraries in multiple languages. The portal gathers all the information about Venice and the cities in its province, with regular updates uploaded by the members of the consortium that make up the APT. A very interesting section is 'Venice Events & Happenings', which provides visitors with information about the artistic, cultural and gastronomic initiatives periodically organized.

That's Venice! Venice Travel Guide

<http://www.traveleurope.it/guides/italy/venice/>

<http://www.thatsvenice.com>

Tourist information portal available both in Italian and English, for those who want to get familiar with the city before visiting it. The aim of [That's Venice!](#) is in fact to provide information and news, but also many curiosities about the landmarks of the city. In this way, visitors can plan their visit according to personal preferences. The portal is divided into sections, with accurate descriptions of Venice's Sestieri, Museums, Palaces and Churches. There is no shortage of sections dedicated to Venice's Bridges, the city's *Calli* and *Campi*, as well as streets and squares.
